

Content area: Curriculum Development

Task: **Cross-curricula Support**

(20 minutes)

As a large group, review the prevention curricula currently being used in the State of Vermont and within your individual school district.

Brainstorm on a piece of flip chart paper various subjects taught. We will divide into groups, one per subject area, and brainstorm ways that teachers of various subjects and disciplines can support prevention curricula. List all ideas on a piece of flip chart paper.

We will discuss as a large group.
