Task: **Drugs Of Choice (A or B)** (45 minutes)

As a large group, brainstorm the current “drugs of choice” in your community. Responses will be listed on flip chart. In a small group, select a substance to learn more about.

A: Using the materials provided (Drug Strategies book, NIDA pamphlets, etc.), prepare a teaching on your substance to present to the large group. This may be a flip chart presentation, a skit, a song, a game show, a poem – use your imagination. We will hear from all.

B: Design a puzzle to share with the rest of the group: crossword, word-find, fill in the blank, jumble, matching, etc. We will either copy and complete in small groups, or make one large copy on a piece of flip chart paper and complete as a large group.
